Testimonials:

“We are in a very competitive market surrounded by larger retailers with rewards programs. During our due diligence phase, we learned that a lot of our customers were already participating in KickBack’s program at Conoco and Phillips 66 locations. By joining the coalition, we are able to help our loyal customers earn discounts, prizes and other great rewards. It’s really a win-win for everyone.”

-Troy Plane, Company Owner and General Manager at Phillips 66

“Once I started carrying the KickBack Points card, I started shopping Alta Convenience Stores a little more. I enjoy getting the rewards, but I really enjoy their employees as well. I look forward to my visits.”

-Chris Park, Customer & KickBack Systems Super Bowl Giveaway Winner

“The Kickback Points program has been a great boost for our business and having the grand prize winner come from one of our stores has been an extremely exciting experience... Chris was really surprised and sincerely grateful to win the grand prize. As a company, it feels great to reward one of our loyal customers with such a fantastic opportunity.”

Our primary font family in most cases is Calibri. It is used in both internal and external KickBack communications. This sans serif typeface is available in various weights. For our purposes, however, the most commonly used are Regular and Bold.

SECONDARY FONTS
Our secondary fonts are Kable Ultra, Luna Bar and Kingstthings trypewrite 2. Kable Ultra is only used for the logo. Luna Bar is used only for “points”. (should be used very seldom. Kingstthings Trypewriter 2 is another font used to emphasis headings on promotional materials to make main type stand out and have a little fun! Calbri can be used for this purpose also.

Orange Starburst card is the only one used for promotional media.
08 | TRADEMARK
A trademark is a word, name, symbol, logo, device or any combination of these, adopted and used by a manufacturer or merchant to identify his/her goods and distinguish them from those manufactured or sold by others.

A service mark is a mark used, or intended to be used, in the sale or advertising of services. It distinguishes the services of one person from the services of others and indicates the source of the services, even if that source is unknown. Titles, character names and other distinctive features of radio or television programs may be registered as service marks, notwithstanding that they, or the program, may advertise the goods of the sponsor.

Identification of trademarks and registered trademarks must be made on the first, most prominent appearance of the item. Items located within close proximity of the trademark identification should be acknowledgement of the entity that owns the legal trademark. Trademark and service marks that are registered in typed format protect the word itself. These marks may appear in any stylized format.

For instance, the registration for KickBack (Registration No. 811,940) would protect either:

KickBack® or KickBack.

However, it would not protect “Kick-Back” as the structure of the word, rather than the appearance, has been altered. Federally registered trademarks should be identified with the federal registration symbol: ®. Failure to identify a federally registered mark as such can affect an entity’s ability to collect damages in a lawsuit and can even result in allegations of fraud. Prior to registration, trademarks (used on goods such as lubricants) may be identified by the symbol, TM. Service marks used in connection with services such as convenience stores or non-product advertising may be identified by the symbol, SM.

The following restrictions apply to all logos addressed in this Style Guide. It is prohibited to:
• reposition elements,
• create drop shadows,
• add elements,
• make color changes, and/or
• change in any way the images created and provided by KickBack.

Any changes must be authorized and approved by the KickBack Brand Communications Department.
NOW IT'S EASY TO DELIVER THE INTEGRITY OF OUR BRAND.
